

# ADVANCED ART

at San Dimas High School

This class is designed for students who wish to continue producing art because they enjoy the subject and/or are preparing for the AP Studio course. Each student is required to produce high quality, thoughtful work consistently. Class projects and individual projects will be alternated so that students may pursue personal interests in art while developing new skills in advanced topics. Opportunities to produce artwork for public display, competitions and school events are plentiful. This course satisfies the **UC/CSU A-G "Fine Arts"** requirement.

The San Dimas High School Choral Program  
presents
